Data Sheet : *1000mm Feed Trough*

The Feed Trough is manufactured to BS8110

Its integrated feed rail allows feed tubes to be run at both sides of the trough, allowing unobstructed access for the feeder delivery chute. The smooth internal finish and bevelled corners allows feed to travel smoothly through the trough and facilitates easy cleaning.

Compatible flat panels are available for column fixing.

Internal Sizes

Length 2300mm
Width 1000mm
Depth 460mm

O/all Width 1200mm
O/all Height 600mm
Weight 1100kg
