## Data Sheet : *Instant Portable Cubicles*

Our concrete portable cubicle unit is designed to hold cattle from 3 months old to the largest adult, with various division styles available.

The cubicle can be quickly installed or removed to facilitate alternative building use. It can also be treated as equipment rather than a fixed building component for tax purposes. Tenant farmers can transfer their units to another holding.

Its flexibility means building layout changes are possible and can be done with ease.

Standard Sizes Available	
<u>Width</u> mm	<u>Length</u> mm
1000	1750
1000	1850
