

Information Pack: 1000mm Feed Troughs

- ✓ Designed to BS8110
- ✓ One or both side feeding
- ✓ No feed traps
- ✓ Concrete end panels available
- ✓ Speedy installation
- ✓ Easily moved with fork tines

Its integrated feed rail allows feed tubes to be run at one or both sides of the trough, maximising space and efficiency. The smooth internal finish and bevelled corners allows feed to travel smoothly through the trough and facilitates easy cleaning.

Compatible flat panels are available for column fixing.
