

Information Pack: 1500mm Feed Troughs

- ✓ Designed to BS8110
- ✓ Feed rail for double sided feeding
- ✓ No feed traps
- ✓ Concrete end panels available
- ✓ Speedy installation
- ✓ Easily moved with fork tines

Its integrated feed rail allows feed tubes to be run at both sides of the trough, maximising space and efficiency. The smooth internal finish and bevelled corners allows feed to travel smoothly through the trough and facilitates easy cleaning.

Compatible flat panels are available for column fixing.
